KanchenJunga Base Camp Trek \$ 2000 Per person

Kanchenjunga is the third tallest mountain in the world, with an elevation of 8,586 metres. It is located in the Himalayas, on the border between Nepal and Sikkim. The Mountain lies in a section of the Himalayas called Kanchenjunga Himal. Kanchenjunga is located in the border region between Nepal and Sikkim. It is the second highest mountain in Nepal and the third highest in the world. Three of its five peaks (Main, Central, and South) are directly on the border, while the remaining two (West and Kangbachen) are located in Nepal's Taplejung district. Although Kanchenjunga is one of the tallest mountains in the world, it is not as popular as other mountains for trekking and mountaineering.

KanchenJunga Base Camp

Kanchenjunga is one of the most beautiful and less explored trekking trails in Nepal. The reason why KanchenJunga base camp is still comparatively less explored by tourist is that the tourist needs more days to visit the KanchenJunga base camp . However, nowadays, the road is being constructed that the road helps the tourists to go to higher places of KanchenJunga base camp by local mean of transportation. It is a challenging trek but it is worth it because of the stunning scenery and the opportunity to learn about Nepali culture. Although it is called KanchenJunga Mountain, there are other more than twelve adjoining snow-capped mountains. So , the tourists can enjoy looking not only KanchenJunga mountain but also more than twelve adjoining snow-capped mountains. The trek starts from Taplejung, which is a two-day journey from Kathmandu. You can fly to Bhadrapur and then take a taxi to Birtamod. From Birtamode, you can take a bus or a jeep to Taplejung. The trek takes you through a variety of landscapes, including forests, hills, and mountains. You will also get to see the Kanchenjunga Conservation Area, which is home to a variety of wildlife, including snow leopards, red pandas, and Asian black bears.

The altitude of KanchenJunga base camp
